PANELS

Garden/Privacy Panels—
Internal/External Artworks
Laser cut from an extensive library or
consult with our in house graphic
designer for your unique look.

Available in all materials:

- * Timber,
- * Mild Steel,
- * Core-ten (Rusty),
- * Brass,
- * Copper,
- * Stainless Steel,
- * Aluminium,

plain or powder coated or cut out of the unique Rimex material range.

Panels can be back lit using low energy LEDs.

Themes and murals are a specialty.

Lots of designs to choose from or we can be commissioned to realise your clients specific requirements.

Call, fax or email us your requirements on the contacts overleaf.

USES

The materials that we manufacture can be used to replace, enhance or change the appearance of many fabricated products from:

- Furniture
- Architectural trims and fittings
- Lighting
- Shop fittings
- Displays
- Bars
- Fences and Gates
- Hand railings
- Balustrades
- Water Features
